```

1) Write a flask program which should display Name , Email, phone and it should display the same details once we hit submit.

OUTPUT:

2) Write a flask program which should cover cookies, sessions

**Output:**

# REGISTER

| user | | Submit Query |

---

You are Register user <u>logout</u>.

3) Write a flask program which should display resume details and also have upload resume option by using file uploading.

OUTPUT:

**Resume Details**

user

user@mail.com

1234567890

Browse... Resume.txt                    Upload

---

# File uploaded successfully

# File Name: Resume.txt
